

IMMEDIATE MEDICAL EXPENSES

The Board's Commercial General Liability policy can elect to incur Immediate Medical Expenses. This no fault coverage is utilized when the student is not covered by any other plan such as the parents' employee benefits and/or student accident insurance.

Reimbursement is considered for medical/dental expenses that are incurred on the **same date of the injury**.

Common expenses submitted for consideration under the policy are ambulance bills and same day emergency dental surgery. Please visit the **Dental Injuries** section of the OSBIE website for further assistance and possible resources for parents of children who have suffered dental injuries.

Not all Boards wish to submit this type of claim. Please contact your Board office to inquire if this coverage is available to you.
